

## PUBLIC NOTICE

**LG Electronics U.S.A., Inc.** has applied to the Tennessee Department of Environment and Conservation, Division of Air Pollution Control for a significant modification to their existing major source (Title V) operating permit subject to the provisions of Tennessee Air Pollution Control Regulations 1200-03-09-.02(11) (Title V Regulations). A major source operating permit is required by both the Federal Clean Air Act and Tennessee's air pollution control regulations. However, it should be noted that this facility has a current major source operating permit.

The Title V operating permit subject to the modification is identified as follows: Division identification number 63-0377/578279. The specific permit conditions affected by this modification are identified as follows:

- Conditions in Sections A-D have been revised according to the new permit template. (Conditions A8, A11, A18, B8, D9, D10, D11, D12 and D13)
- Condition E1 has been revised to show the new facility wide VOC allowable emissions in the Summary Table.
- Condition E3-1 has been revised to include the facility-wide VOC allowable emission limit.
- Condition E3-2 language has been revised to specify calculation of each individual HAP as well as total HAP on a monthly basis and during each period of 12 consecutive months. Note [1] was added below the Monthly Material Usage and VOC/HAP Emissions-Individual Source table. In the second paragraph under the Monthly and 12-Month Total Emissions table, "and VOC" was added to the first sentence.
- Condition E3-8 has been revised to reflect the new technical and billing contact.
- Condition E4-1 has been revised to reflect new allowable VOC emission limit for that source.
- Condition E5-3 has been revised to reflect new allowable VOC emission limit and the pressure drop monitoring requirements. Language has been added to specify that emissions of VOC and HAP from this source are to be included in the facility-wide recordkeeping required by Condition E3-2.
- Condition E5-11 language has been revised to include compliance with Condition E5-3.
- Condition E6-1 has been revised to reflect the new allowable VOC emission limit.
- Language was added to Conditions E4-1, E6-1, and E8-8 to specify that monthly emissions from each of these sources must be included in the facility-wide recordkeeping for VOC and HAP emissions required by Condition E3-2.
- Attachment 2 has been updated to include the latest agreement letter.

Only the portions of the Title V permit affected by this significant modification are open for comment during the notice period.

EPA has agreed to treat this draft significant modification to permit no. 578279 as a proposed Part 70 significant permit modification and to perform its 45-day review provided by the law concurrently with the public notice period. If any substantive comments are received, EPA's 45-day review period will cease to be performed concurrently with the public notice period. In this case, EPA's 45-day review period will start once the public notice period has been completed and EPA receives notification from the Tennessee Air Pollution Control Division that comments have been received and resolved. The status regarding EPA's 45-day review of these permits and the deadline for submitting a citizen's petition can be found at the following website address:

<https://www.epa.gov/caa-permitting/tennessee-proposed-title-v-permits>

Copies of the application materials and draft permit are available for public inspection during normal business hours at the following locations:

Tennessee Department of Environment and Conservation  
Nashville Environmental Field Office  
Division of Air Pollution Control  
711 R. S. Gass Blvd  
Nashville, TN 37216

and Tennessee Department of Environment and Conservation  
Division of Air Pollution Control  
William R. Snodgrass Tennessee Tower  
312 Rosa L. Parks Avenue, 15th Floor  
Nashville, TN 37243

Electronic copies of the draft permit and application materials are available by accessing the TDEC internet site located at:

<https://www.tn.gov/environment/ppo-public-participation/ppo-public-participation/ppo-air.html>

Questions concerning the source(s) may be addressed to Sarosh Kaiser at (615) 532-0585 or by e-mail at [sarosh.kaiser@tn.gov](mailto:sarosh.kaiser@tn.gov).

Interested parties are invited to review these materials and comment. In addition, a public hearing may be requested at which written or oral presentations may be made. To be considered, written comments or requests for a public hearing must be received no later than **4:30 PM on December 30, 2023**. To assure that written comments are received and addressed in a timely manner, written comments must be submitted using one of the following methods:

1. **Mail, private carrier, or hand delivery:** Address written comments to Ms. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue 15<sup>th</sup> Floor, Nashville, Tennessee 37243.

2. **E-mail:** Submit electronic comments to [air.pollution.control@tn.gov](mailto:air.pollution.control@tn.gov).

A final determination will be made after weighing all relevant comments.

Individuals with disabilities who wish to review information maintained at the above-mentioned depositories should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such review. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue 22<sup>nd</sup> Floor, Nashville, TN 37243, 1-(866)-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.
