

## Who we are:

The Department of Environment and Conservation exists to enhance the quality of life for citizens of Tennessee and to be stewards of our natural environment.

We foster a work environment that's inclusive as well as diverse, where our people can be themselves. Every idea and perspective are valued so that our culture reflects the people we serve.

Our department is committed to providing a cleaner, safer environment that goes hand-in-hand with economic prosperity and increased quality of life in Tennessee. We deliver on our mission through managing regulatory programs that maintain standards for air, water and soil quality while providing assistance to businesses and communities in areas ranging from recreation to waste management. We manage the state park system and programs to inventory, interpret and protect Tennessee's rich natural, historical, and archaeological heritage.

## About the Division of Underground Storage Tanks:

UST serves as the regulatory agency for petroleum underground storage tanks in Tennessee. The Division is accountable for protecting the health and environmental community for all Tennesseans through responsive and effective oversight of petroleum USTs to prevent future releases and remediation of existing petroleum UST contamination at active and inactive sites where petroleum underground storage tanks operate or have operated within the state. The Division has staff in the Central Office as well as eight Environmental Field Offices located across the state.

## TDEC Senior Environmental Tech Division of Underground Storage Tanks Memphis Environmental Field Office (MEFO) Annual Salary Range: \$43,140 – \$64,560

Are you seeking an opportunity to work with a collaborative team in Tennessee State government? Are you concerned with protecting our environment and public health? The Department of Environment and Conservation, Division of Underground Storage Tanks (UST), offers a position that serves as a contamination project manager, ensuring the mission to protect human health and the environment. The responsibilities include oversight of assessment and corrective action of UST petroleum release sites in West Tennessee. The workgroup is a high-performing, collaborative team located across the state. This position is based out of the Memphis Environmental Field Office. TDEC employees work in alternative workspaces from home, with some scheduled time in the assigned office.

This position requires excellent communication skills to effectively serve a broad and diverse customer base. Candidates must be familiar with Microsoft 365 applications and willing to learn database entry. Preferred candidates will have a high school diploma and three years of experience with assessment and/or remediation of petroleum UST releases. Since the position conducts fieldwork at UST sites, daily travel is required, along with some overnight stays. Candidates must meet the minimum qualifications (MQs) for this position. For MQs and how to apply, please visit: <http://www.tn.gov/careers>.

### Highlighted Responsibilities:

- Conduct field inspections of petroleum UST release assessment and remediation activities conducted by the regulated community.
- Conduct field inspections of petroleum UST system, or any component thereof, closure and assessment by the regulated community.
- Documentation of all field inspections, including photographic documentation, and upload to database.
- Direct communication with the TDEC-UST project managers regarding observations, including any issues or concerns with respect to regulatory requirements.
- Assist others in the workgroup with ground penetrating radar surveys, preliminary data review, and telemetry review of corrective action systems.

*Pursuant to the State of Tennessee's Workplace Discrimination and Harassment policy, the State is firmly committed to the principle of fair and equal employment opportunities for its citizens and strives to protect the rights and opportunities of all people to seek, obtain, and hold employment without being subjected to illegal discrimination and harassment in the workplace. It is the State's policy to provide an environment free of discrimination and harassment of an individual because of that person's race, color, national origin, age (40 and over), sex, pregnancy, religion, creed, disability, veteran's status, or any other category protected by state and/or federal civil rights laws.*
