

Tennessee Sample - Initial Notification

National Emission Standards for Hazardous Air Pollutants:

Area Source Standards for Nine Metal Fabrication and Finishing Source Categories

40 CFR 63 subpart XXXXXX

This is an example of the type of information that must be submitted to fulfill the Initial Notification requirement of 40 CFR 63, subpart XXXXXX. You may submit the information in another form or format, or you may use this form.

Section 1. Facility Information

Yes, I am subject to 40 CFR Part 63 subpart XXXXXX, National Emission Standards for Hazardous Air Pollutants: Area Source Standards for Nine Metal Fabrication and Finishing Source Categories

Source category and SIC/NAICS code(s) _____

Operator name/title: _____

Operator telephone number: _____ Fax: _____

Operator email address (if available): _____

Compliance Date: Existing source: July 25, 2011 New source: _____
(Date of startup)

No, I am NOT subject to 40 CFR Part 63 subpart XXXXXX. Reason not applicable:

If you checked the "No" box above, please complete only Section 1 of this form and then proceed directly to Section 3 of this form (skip Section 2).

Company name _____

Facility name (if different): _____

Facility (physical location) address: _____

Owner name/title: _____

Owner/company address: _____

Owner telephone number _____

Owner email address (if available): _____

Is the Operator the same person as the Owner? Yes No

If the Operator information is different from the Owner, please provide the following:

Operator name/title: _____

Operator telephone number: _____

Operator email address (if available): _____

Section 2. Identification of Affected Operations

The following are the operations at this facility subject^b to subpart XXXXXX (check all that apply):

Dry Abrasive Blasting		
	(1) Totally enclosed and unvented blast chambers	<input type="checkbox"/>
	(2) Vented enclosures with a filtration control device	<input type="checkbox"/>
	(3) Objects over 8 feet in any dimension without a filtration control device (includes outdoor blasting of objects over 8 ft in any dimension)	<input type="checkbox"/>
Dry Machining		
Dry Grinding or Dry Polishing with Stationary Machines		
Spray Painting		
	(1) In a spray booth	<input type="checkbox"/>
	(2) Without a spray booth (for Fabricated Structural Metal facilities or any objects over 15 feet)	<input type="checkbox"/>
Welding		
	(1) Use less than 2,000 pounds of MFHAP-containing ^b welding rod or wire annually	<input type="checkbox"/>
	(2) Use 2,000 pounds or more of MFHAP-containing ^b welding rod or welding wire annually	<input type="checkbox"/>

^b **Important Note:** These operations are affected sources under subpart XXXXXX only if/when they use materials that contain or have the potential to emit metal fabrication or finishing metal HAP (MFHAP). **MFHAP containing/potential** is defined to be when the compounds of cadmium, chromium, lead, manganese, and nickel, or any of these metals in the elemental form with the exception of lead, are used or have the potential to be emitted in quantities of 0.1 percent or more, or 1.0 percent or more for elemental or compounds of manganese.

Section 3. Certification

I hereby certify that the information presented herein is correct to the best of my knowledge.
