Ms. Jennifer Dodd  
Director, Division of Water Resources  
Tennessee Department of Environment and Conservation  
312 Rosa L. Parks Avenue  
Nashville, Tennessee 37243-15340

Subject: Approval of the State of Tennessee's 2022 303(d) List Submittal

Dear Ms. Dodd:

The U.S. Environmental Protection Agency Region 4 has completed its review of the Tennessee Department of Environment and Conservation's Final 2022 Clean Water Act section 303(d) List of water quality limited segments. The EPA has determined that each of the water quality limited segments still requiring total maximum daily loads identified on the State's List meets the requirements of the Clean Water Act section 303(d) and its implementing regulations at 40 C.F.R. section 130.7. The EPA hereby approves Tennessee's decision to include each of the waters designated by the State in its 2022 303(d) List. Enclosed for your information is the accompanying decision document for this approval action.

If you have questions concerning this matter, please feel free to contact me at (404) 562-9345 or Mr. Joel Hansel, Acting Chief, Monitoring, Assessment, Listing, and TMDL Section at (404) 562-9274.

Sincerely,

Jeaneanne M. Gettle, Director  
Water Division
