NASHVILLE, TENNESSEE 37243

June 23, 2010

The Honorable Phil Bredesen  
Governor of Tennessee  
State Capitol, First Floor  
Nashville, TN 37243

Dear Governor Bredesen:

I am very pleased to submit the fourth annual report summarizing the activities of the Center for Diabetes Prevention and Health Improvement. It has been an exciting year for Project Diabetes and the Center for Diabetes Prevention and Health Improvement (the Center). The Board of Trustees has met regularly and continues to provide expertise and guidance for Project Diabetes activities. Board members are committed and have been instrumental in determining how to show the successfulness of the funded projects promoting statewide Project Diabetes efforts to combat the proliferation of Type 2 Diabetes through grants to agencies for that purpose. Grantee agencies have shared success stories at Board meetings during the past year, and the results are encouraging.

I appreciate the opportunity to serve as Chair of the Board of Trustees during this time, and look forward to the work that lies ahead for this group. Thank you for your on-going support for prevention of obesity and diabetes in our great State. Please contact me if you have any questions or comments.

Sincerely,

Dr. Dexter Shurney  
Chairperson, Center for Diabetes Prevention and Health Improvement Board

Dr. Dexter Shurney  
Chairperson, Center for Diabetes Prevention and Health Improvement Board

**Center for Diabetes Prevention and Health Improvement  
Operations and Financial Status  
Annual Report  
Fiscal Year 2009-2010**

This report is provided in response to Tennessee Code Annotated (TCA) Title 4, Chapter 40, Part 4 which requires the Center for Diabetes Prevention and Health Improvement (the Center) to provide an annual report to the Governor, the Speaker of the House of Representatives, and the Speaker of the Senate with regard to operation and financial status of the Center.

TCA 4-40-401 et seq. which took effect July, 2006 established the Tennessee Center for Diabetes Prevention and Health Improvement (The Center) as an agency of the State with its purpose to develop, implement and promote a statewide effort to combat the proliferation of Type 2 diabetes. This statewide effort is referred to as "Project Diabetes".

The Center operates under the direction of a seven (7) member Board of Trustees. Dexter Shurney, MD, MBA, MPH, continues to serve as the Chair. There are no vacant seats on the Board. The Board has met on a regular basis this year with meetings in July, August and November, 2009 and April, 2010. During these meetings, the Board reviewed the established by-laws; goals and objectives for diabetes treatment and prevention planning and implementation projects; and TCA 4-40-401 et seq. As the Board's administrative arm, the Department of Health has provided the Board with updates on Project Diabetes grant activities. The Department also arranges for Project Diabetes grant recipients to showcase their projects at the Center's Board meetings.

**Project Diabetes Awards:** Twenty-five projects that received funding in Fiscal Year 2008-2009 were continued during Fiscal Year 2009-2010 based on their successful outcomes. These projects, totaling \$2,274,500, represent geographic and target population diversity.

| Agency Name                         | Counties Served   | Amount  | Population Served |
