TN Healthy Transitions

We welcome youth and young adults ages 16-30, who self-identify as living with mental illness, substance abuse, and/or systems involvement (e.g. foster care, child welfare, juvenile justice, housing, etc.). No mental health diagnosis or amount of recovery time is required. YALC is a safe place where youth voice and youth choice is encouraged. Our hope is to create leaders who aspire to make a change in their local communities and within youth serving systems.

For more information or to join our statewide young adult leadership council scan the QR code.
