The Helen DeVos College of Education seeks to promote practices and programs that facilitate teaching and learning. This occurs in the classroom and outside of the classroom through modeling best practice, encouraging experimentation and innovation, research, and facilitating programs that positively affect the learner in his/her environment. The mission of the Lee University Teacher Education Program is to prepare candidates who are Lifelong learners, Effective educators, and Ethical practitioners. The objective is to produce teachers who (1) display a broad general background in liberal education, (2) demonstrate thorough preparation in specific academic disciplines, (3) plan and teach effectively, and (4) view teaching as an area of Christian service.
