# The Labor Market Report

## County Per Capita Personal Income 2010-2014

According to the U.S. Bureau of Economic Analysis the 2014 Tennessee per capita personal income was \$40,457, up 2.9 percent from the previous year and 13.6 percent from 2010. The United States per capita personal income (metropolitan portion) was \$47,615 in 2014.

Per capita personal income is defined as the annual total personal income of residents divided by the residential population as of July 1. Personal income is derived by summing the net earnings, rental income, personal dividend/interest income, and transfer payments by place of residence. Personal income excludes federal income tax deductions and other personal taxes and is reported in current dollars. In simpler terms, it is the total income on the front page of your 1040 tax form. This data can be influenced by large growth (or decline) in population, natural disasters (i.e., flooding or hurricanes), commuting populations (those that primarily work in other counties), and state and local taxes.

### Tennessee Counties

In 2014, the Tennessee counties with the highest per capita personal income were Williamson (\$71,761), Davidson (\$54,307), Trousdale (\$53,567), Fayette (\$50,890), Shelby (\$44,705), Hamilton (\$44,112), Knox (\$43,012), Wilson (\$41,214), and Anderson (\$40,361). In 2010, the ranking was Williamson, Davidson, Fayette, Shelby, Hamilton, Montgomery, Knox, and Trousdale.

The counties with the lowest per capita income were Bledsoe (\$21,432), Hancock (\$23,104), Lake (\$23,582), Lauderdale (\$25,468), Union (\$26,104), Scott (\$26,374), Wayne (\$26,492), Van Buren (\$26,648), and Hickman (\$26,982). In 2010, the

ranking (from the bottom) was Lake, Bledsoe, Hancock, Lauderdale, Hickman, Union, Wayne, and Lewis. The greatest changes in county ranking over the last 35 years were Jackson moving from 90<sup>th</sup> to 37<sup>th</sup> and Fentress from 93<sup>rd</sup> to 61<sup>st</sup>.

The counties with the largest percent growth since 2010 were Trousdale (up 45.6 percent), Meigs (up 24 percent), Fayette (up 23.2 percent), Moore (up 22.4 percent), and Bradley (up 22.1 percent). Counties with the lowest percent per capita income growth include Stewart (up 2.7 percent), Montgomery (up 4.3 percent), Decatur (up 6.9 percent), Bledsoe (up 7.9 percent), and Carroll (up 8.2 percent). Trousdale County had unusually high growth due to numerous factors. TVA sold the area around an unfinished nuclear power plant, and it has been developed into a successful business park. The diverse new businesses have greatly increased the per capita personal income.

### Tennessee Metropolitan Areas

In the ten metropolitan statistical areas (MSAs), the Nashville-Davidson-Murfreesboro-Franklin MSA had the highest per capita personal income in 2014 at \$47,392. The Morristown MSA had the lowest per capita personal income at \$31,593. In 2010, the Clarksville MSA had the third highest per capita income in the state. It is a community with large numbers of military and military retirees. Declines in federal government spending have caused stagnant wages in the last three years. Clarksville currently has the sixth highest per capita personal income in the state.

More regional and local information is available at the Bureau of Economic Analysis Web site at <http://www.bea.gov/newsreleases/regional/lapi/2015/lapi1115.htm>

## NONFARM EMPLOYMENT & LABOR FORCE NARRATIVE

Total nonfarm employment increased by 49,100 jobs from November 2014 to November 2015. There were large increases in administrative/support/waste management (up 10,100 jobs); accommodation/food services (up 7,500 jobs), which includes an increase of 6,400 jobs in food services/drinking places; and retail trade (up 7,500 jobs), which includes increases of 3,000 jobs in food/beverage stores and 2,000 jobs in motor vehicle/parts dealers.

Smaller increases occurred in financial activities (up 6,100 jobs), which includes an increase of 4,000 jobs in finance/insurance; health care/social assistance (up 5,900 jobs), which includes increases of 6,600 jobs in ambulatory health care services, 2,100 jobs in hospitals, and a decline of 1,900 jobs in nursing/ residential care facilities; wholesale trade (up 4,900 jobs), which includes an increase of 2,200 jobs in nondurable goods wholesalers; transportation/warehousing (up 4,200 jobs); transportation equipment manufacturing (up 2,500 jobs); arts/entertainment/recreation (up 2,200 jobs); and local government educational services (up 2,100 jobs). These increases were partially offset by declines in information (down 2,000 jobs) and state government (down 1,900 jobs).

During November 2015, nonfarm employment increased by 15,400 jobs. There were increases in retail trade (up 8,100 jobs), which includes increases of 3,700 jobs in general merchandise stores and 2,300 jobs in clothing/clothing accessories stores; professional/business services (up 4,100 jobs), which includes an increase of 2,800 jobs in administrative/support/waste management; transportation/warehousing (up 2,900 jobs); financial activities (up 1,700 jobs); and local government (up 1,100 jobs). This was partially offset by decreases in leisure/hospitality (down 2,900 jobs), which includes declines of 1,600 jobs in arts/entertainment/recreation and 1,300 jobs in accommodation/food services; mining/logging construction (down 1,500 jobs); and state government educational services (down 1,200 jobs).

Tennessee's seasonally adjusted estimated unemployment rate for November 2015 was 5.6 percent, unchanged from the revised October rate. The United States unemployment rate in November was 5.0 percent, unchanged from the revised October 2015 rate.

In November 2014, the national unemployment rate was 5.8 percent while the state rate was 6.6 percent.

Across Tennessee, the unemployment rate increased in 59 counties, decreased in 12 counties, and remained the same in 24 counties. There were 13 counties with rates below 5 percent. In November 2015, the lowest rate was in Williamson County at 3.9 percent, up 0.1 percent from the previous month, while the highest rate was in Hancock County at 9.9 percent, up from 9.8 percent in October.

The data from all the nonfarm employment estimates tables include all full- and part-time nonfarm wage and salary employees who worked during or received pay for any part of the pay period that includes the 12th of the month. This is a count of jobs by place of work. Agricultural workers, proprietors, self-employed persons, workers in private households, and unpaid family workers are excluded. These numbers may not add due to rounding. Data are based on the 2014 benchmark.
